Introducing **AGT** Foam Tapes

Pop Stick™

POP Stick is an industry favorite adhesive tape for assembling P.O.P. displays and signage. It is an extremely aggressive adhesive that is designed to bond to a variety of surfaces, even allowing the joining and filling of gaps with irregular surfaces.

Temp Tape One™

Temp Tape One is a double-sided foam tape with an aggressive permanent adhesive on one side, and a removable yet durable adhesive on the other. The removable side is identified by our printed liner and removes cleanly from difficult surfaces, even after an extended period of time. Recommended for light weight applications or filling gaps.

Temp Tape Two™

Temp Tape Two is a double-sided removable adhesive foam tape that remains durable after a extended period of time. Temp Tape Two removes cleanly from most hard non-delaminating surfaces. Recommended for light weight temporary applications or filling gaps.

Pop Stick™ Blocks

POP Stick Blocks are ideal for constructing POP displays, securing signs and posters, creating 3D effects, and many other applications. They are made with an extremely aggressive adhesive that is designed to bond to a variety of surfaces, even allowing the joining and filling of gaps when those surfaces are irregular.

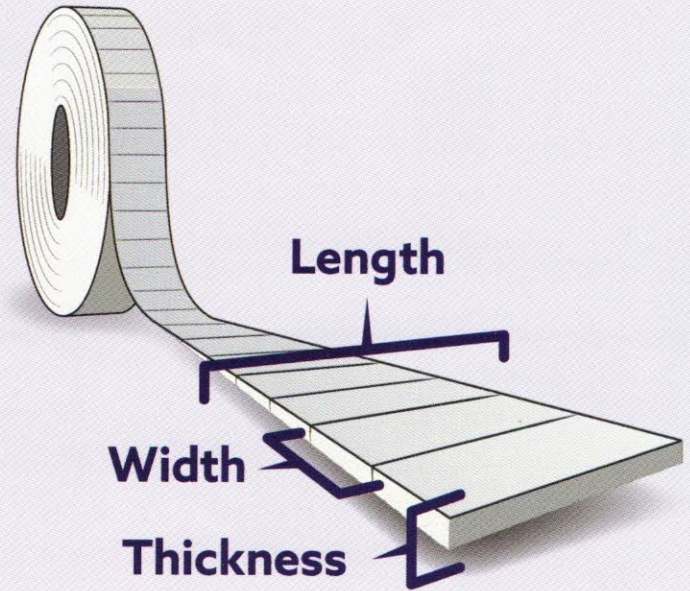

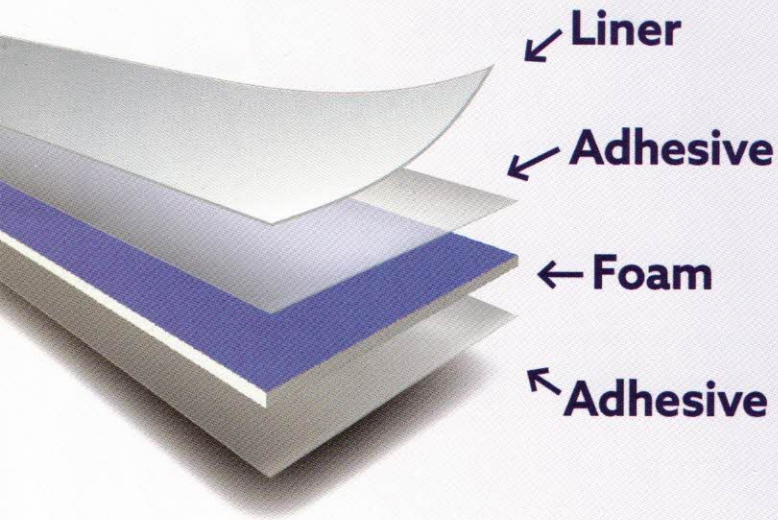

Pop Stick™ Pancakes

POP Stick Pancake rolls are versatile double-sided self-adhesive foam tapes that are made from a non-marring flexible foam for protection or gap filling usage. Ideal for hand or automatic application. Designed with an extremely aggressive tack that can bond to many different types of surfaces.

Superior Manufacturing

Superior Foam Tapes

AGT offers a variety of double-sided foam tapes as well as custom cuts, shapes, and sizes so you can have the perfect product for your application. Our double-sided foam is great for filling gaps and bonding to irregular surfaces. It can be used to secure a wide variety of items to various surfaces, whether on a POP display, wall, table, or glass.
